**"GEN is one of the most important media for keeping abreast of the cutting-edge developments in the field of biotechnology. If you are in biotechnology you need to read GEN."**

— *David B. Weiner, PhD, University of Pennsylvania*

**"GEN's comprehensive overviews of hot areas in biotech make it a 'must read' for me and my colleagues."**

— *Arthur M. Krieg, MD, Pfizer*

**"GEN is an essential source of up-to-date information. There is nothing else like it! It keeps us in touch with new opportunities and is invaluable."**

— *Professor Sir Ian Wilmut, OBE, FRS, FRSE, University of Edinburgh*
