

## READY TO ENGAGE™

Patent Reexaminations | IP Litigation | Patent Preparation + Prosecution | Trademark Prosecution + Enforcement

NOVAK DRUCE + QUIGG LLP (Novak Druce) is a national law firm focused exclusively on complex intellectual property matters for clients across the globe. Novak Druce attorneys help our clients navigate the complexities of U.S. intellectual property law by securing, enforcing and defending their intellectual property rights.

Our life science attorneys have been representing the stem cell sciences for over a decade. With our extensive research and technical backgrounds, we have the expertise to handle intellectual property matters across the spectrum, including stem cell technology, diagnostic assays, genetics, immunology, medical devices, molecular biology, transgenic plants and animals, pharmaceuticals and small molecules.

For further information on how Novak Druce is Ready to Engage™ on your projects, please contact Gregory Novak, Managing Partner, at [gnovak@novakdruce.com](mailto:gnovak@novakdruce.com) or Tracy Druce, Executive Partner, at [tdruce@novakdruce.com](mailto:tdruce@novakdruce.com).

Novak Druce Partner Dr. Nicholas Zachariades, Ph.D. will be speaking on “The Shifting Landscape of Intellectual Property Law and Its Impact on the Future of Regenerative Medicine” panel at the 2010 World Stem Cell Summit in Detroit. Dr. Zachariades focuses his practice on patent opinion counseling and patent procurement in the biotechnology and pharmaceutical fields. Dr. Zachariades holds a Ph.D. in Cellular Immunology and is the recipient of many prestigious grants by the National Institutes of Health, the Cancer Research Institute and the Poliomyelitis Foundation. He can be contacted at [nicholas.zachariades@novakdruce.com](mailto:nicholas.zachariades@novakdruce.com).
