

Michigan's URC

University Research Corridor

Educates more students than any of the nation's best R&D clusters.

A quarter of URC graduates earn degrees preparing them for high-tech fields.

Spun off an average of more than twenty new companies per year over eight years — 160 companies from 2002 through 2009.

Expended \$1.6 billion in research dollars in 2009, 93% of all university-based R&D in the state.
